S/o:-Prakash Ghatnatti (T), mudhol (D)
Bagalakot Malapur(V) Karnataka-587313.

EXPERIENCE

Java Developer at MedOnGo Health Private Limited (Sept 2022-Till Now).

Project: -

- ✓ I have worked on a video consulting web application project utilized by Government hospitals across several districts of our country. The project aims to provide video consultations for individuals with doctors. Doctors provide instructions remotely as well as offline, and patient records are stored in the cloud to track the patient's health and recovery progress for subsequent consultations.

Roles & Responsibilities :-

- ✓ Responsible for coding and developing using Spring and OFBiz.
- ✓ Generating desired output responses based on requirements using DTO.
- ✓ Designing Controller, Service, and DAO specific Java Beans, Classes.
- ✓ Used technologies Such as Spring, OFBiz, MySQL, and Hibernate.
- ✓ Used MySQL for database connection and Apache Tomcat server.
- ✓ Participated in defect meetings with team members and the development team for defect resolution and setting defect priorities.

Professional Certifications

- ✓ Full Stack Java Certification from J-Spider Institute of Technology (2020- 2021)
